Project Title: South Street Reconstruction and ADA Project

Project Purpose: What transportation deficiency will this project address? (safety, congestion, operations, plan implementation, etc): South Street is the main access to the Mendocino Coast District Hospital Emergency Center, Mendocino Coast Clinics, numerous doctor and dental offices near River Drive and Mendocino County offices just off Franklin Street. South Street is also the primary access for Senior Housing and apartments at the east end of South Street. This project proposes to improve not only street surfacing and drainage improvements, but will also provide improved pedestrian access and sidewalk infill and bicycle access.

Project Location: South Street from State Route 1 (Main Street) to east R/W River Drive

Project Description: Grinding and removal of existing pavement; implementation of the cold foam recycle process utilizing existing ground pavement and base rock to re-establish the street base material; installation of new asphalt surface; installation of curb ramps at corners as required; sidewalk infill; installation of signage and striping.
